

In Memoriam
Norman Andersen

Once more we have received the sad news that one of our good colleagues for many years has passed away.

Norman Andersen died unexpectedly on November 24, 2009.

Norm was the project leader for the first version of ISO 19101, the Reference model, published in 2002. For a short period he was the convenor of WG 1. He was also involved in several of the other projects in the committee.

We are grateful for his contribution to the ISO/TC 211 work, and we have lots of good memories about his good humor and his warm friendship.

Our sympathy and warm thoughts are with his family.

Olaf Østensen
ISO/TC 211 Chair

Bjørnhild Sæterøy
ISO/TC 211 Secretary
