

**STANDARDS IN ACTION WORKSHOP
ISO/TC 211 Advisory Group on Outreach**

Wednesday November 4, 2009 at 1:30 PM – 5:00 PM

**Hôtel Plaza Québec
3031, Boulevard Laurier
Quebec City, Quebec, Canada**

Chairs: Mr. Olaf Østensen, chairman of ISO/TC 211
Mr. Gordon Plunkett, ESRI Canada Ltd

Program coordinators: Mohamed Habbane, Jean Brodeur, Canada

Purpose: The workshop will gather communities that operate in the domain of geographic information standards to foster dialogue related to current and future direction and development of ISO/TC 211 19100 suite of standards.

Key Objectives:

- To communicate and demonstrate recent activities in the implementation of standards, community-specific architectures, and standards based technology development;
- To gather recommendations regarding specific strategies to enhance the direction and development of base standards and emerging ones;
- To provide a meeting and networking opportunity for ISO/TC 211 members, stakeholders and partners.
