Working Group 6 – Imagery

AGENDA

29 October 07

Meeting of Working Group

- | | | |
|------|---|------------------------------|
| 0900 | 1. Welcome and Introduction | Convenor |
| | 2. Roll call of members | Members |
| | 3. Approval of agenda | Members |
| | 4. Review of minutes from previous meeting | Convenor |
| | 5. Status of current Projects
Review of the status and time-frame for projects | |
| | 5.1 Reference Model Imagery 19101-2 | R Kuffel |
| | 5.2 Metadata - Imagery 19115-2 | D Danko |
| | 5.3 Framework 19129 (in editing committee) | CD O'Brien |
| | 6. Restarting of 19130 | |
| | 6.1 Status of proposed NWIP to restart Sensor Data Model project | Li Ping Di |
| | 6.2 Discussion and call for input for sonar and other sensor types | Convenor |
| | 7. Planning of future NWIPs for WG6 work | |
| | 7.1 Plan for future work for WG6.
How far should the work of WG6 go? With the completion of 19101-2 and 19115-2 and the future completion of 19129 and 19130 the basic high level structure for imagery and gridded data will be set. What else is required? Should there be Framework Data Content Standards for Satellite Imagery, Elevation Data, Bathymetry? Should TC211 address encoding? There exist several well used encoding standards surveyed in TR 19121. What should be the relationship? Will maintenance be required? TS MUST be processed to IS after one reaffirmation vote, so a follow-on is needed. | Convenor and Delegates |
| | 7.2 There has been discussion for some time about portrayal issues for imagery and gridded data such as draping of imagery over elevation model surfaces, managing of the colour space for the presentation of multiple data sets. Is there work that needs to be addressed? | |
| | 7.3 Preparation of NWIPs. If there is work that needs to be done in these areas then nations need to prepare NWIPs, and volunteer a project leader and participants for these teams. | |
| | 8. Working Group 6 report to the TC
Progress
Timetable
Issues | Convenor and Project Leaders |
| | 9. Any other Business | Delegates |
