ISO/TC 211/WG1/N 177

Dear Colleagues:

There will be an ISO/TC211 Working Group 1 meeting in Vienna, Austria on March 1-2, 1999.

As a result of our diligent efforts, four Working Group 1 projects are now at Committee Draft stage and under review by ISO/TC211 Member National Bodies. Reference Model, Overview, Conformance and Testing, are at Committee Draft Stage and under review by the Member National Bodies. The Type 3 Technical Report on Imagery and Gridded Data has also been circulated for comment by the National Bodies. Because of their current status, we will not conduct technical work on these items during the meeting other than to review brief status reports. The Project Leadership for Terminology still remains vacant, however progress is being made to remedy this situation.

The meeting will focus on outstanding issues related to the Conceptual Schema Language project and model harmonization in ISO/TC211. A provisional agenda for the meeting is provided below. It should also be noted that an effort is being made to organize a model harmonization meeting in conjunction with meetings on March 1-5 at a time when most Project Leaders can attend. The result of this meeting could also impact the WG1 agenda provided below.

Information on ISO/TC211 plenary meetings, accommodations, the meeting site, travel to Vienna, Austria is available in **ISO/TC211/N645**, *Registration form and hotel information for the 8th plenary and WG meetings of ISO/TC 211 in Vienna, Austria, 1999-03-01/05*. This document can be found on the ISO/TC211 WWW page. Please feel free to contact me if you have questions on the upcoming Working Group 1 meeting.

Please let me know if you plan to attend at your earliest convenience. I hope to see you all there!

Sincerely,

Christopher Dabrowski, Convenor,
ISO/TC211 Working Group 1,
Framework and Reference Model

January 11, 1999

ISO/TC 211/WG1/N 177

Provisional Agenda for Meeting of ISO/TC211 Working Group 1 Framework and Reference Model Vienna, Austria March 1-2, 1999

Please note that the times given below are approximate and subject to change.

Monday, March 1

On this day we will review status reports for the Reference Model, Overview, Imagery and Gridded Data. We will also prepare for Tuesday evening's Term Harmonization Meeting. Discussion of issues related to the Conceptual Schema Language Work Item will take place and be continued on Tuesday if necessary. We will discuss progress to date on the use of UML to develop Conceptual Schemas for the Parts of ISO 15046 and address the issue of model harmonization within ISO/TC211.

0900-1000	Roll Call of Members, Approval of Meeting Agenda, Schedule of Future WG1 Meetings	<i>Convenor</i>
1000-1030	Project Status Reports on Reference Model Overview, Terminology, Conformance and Testing, and Imagery and Gridded Data	<i>Project Leaders & Convenor</i>
1030-1100	Preparation for Terminology Harmonization Meeting	<i>Convenor</i>
