## ISO/TC 211/WG1/N 217

Dear Colleagues:

There will be an ISO/TC211 Working Group 1 meeting in Capetown, South Africa. There will be a meeting on Monday, March 6, 2000 to address outstanding issues related to Terminology and procedures and maintenance of vocabulary. The Monday meeting will also discuss on requirements for data sharing, intworking, and interoperability and their impact on ISO/TC211 standardization. A meeting of the Stage 0 Imagery and Gridded Data Components project Team will take place on Wednesday, March 8. This project team will be developing new work item proposals. Hence, the latter stages of the March 8 Imagery PT meeting will be regarded as a full WG1 meeting in order to consider forwarding these proposals to the Secretariat. A preliminary agenda for the March 6 meeting appears below. Complete agendas for both the March 6 and March 8 meetings will be available for distribution soon.

WG1 has been making steady progress towards the completion of its work programs. Due to our diligent efforts, all Working Group 1 projects (excluding the Stage 0 Imagery and Gridded Data Components project) are at Committee Draft stage or beyond. Conformance an Testing is now a Draft International Standard (DIS) and is currently being balloted for elevation to FDIS. The Type 3 Technical Report on Imagery and Gridded Data, NP16569 has been approved and finalized. Reference Model and Overview have been approved for DIS, while Conceptual Schema Language and Terminology are in earlier phases of the Committee Draft Stage.

Information on ISO/TC211 plenary meetings, accommodations, the meeting site, travel to Kyoto, Japan is available in *ISO/TC211/N807, Practical information and registration forms for the 10th ISO/TC 211 plenary and working group meetings in Cape Town, South Africa, 2000-03-06/10*. This document can be found on the ISO/TC211 WWW page. Please feel free to contact me if you have questions on the upcoming Working Group 1 meeting.

Please let me know if you plan to attend at your earliest convenience. I hope to see you all there!

Sincerely,

Christopher Dabrowski, Convenor,  
ISO/TC211 Working Group 1,  
Framework and Reference Model
